

AMENDMENTS TO THE SPECIFICATION

On page 8, please replace the first full paragraph under the heading "Brief Description of the Drawing" with the following amended paragraph:

~~Fig. 1~~The Figure shows in conceptual form a stimuable phosphor sheet according to an embodiment of the invention.

On page 8, please replace the third full paragraph (second full paragraph under the heading "Detailed Description of the Invention") with the following amended paragraph:

~~Fig. 1~~The Figure shows in conceptual form an example of the stimuable phosphor sheet according to the invention.

Please replace the paragraph bridging pages 17-18 with the following amended paragraph:

Using europium bromide as an activator's film forming material and cesium bromide as a phosphor's film forming material, binary vacuum evaporation was performed to prepare a phosphor sheet 10 as depicted in ~~Fig. 1~~the Figure, with the CsBr:Eu phosphor layer 14 deposited on a surface of the glass substrate 12.
